What is Apportionment/Re-Apportionment?

Definition; The act of distributing by allotting or apportioning; distribution according to a plan.

The way by which elected representatives represent our district.

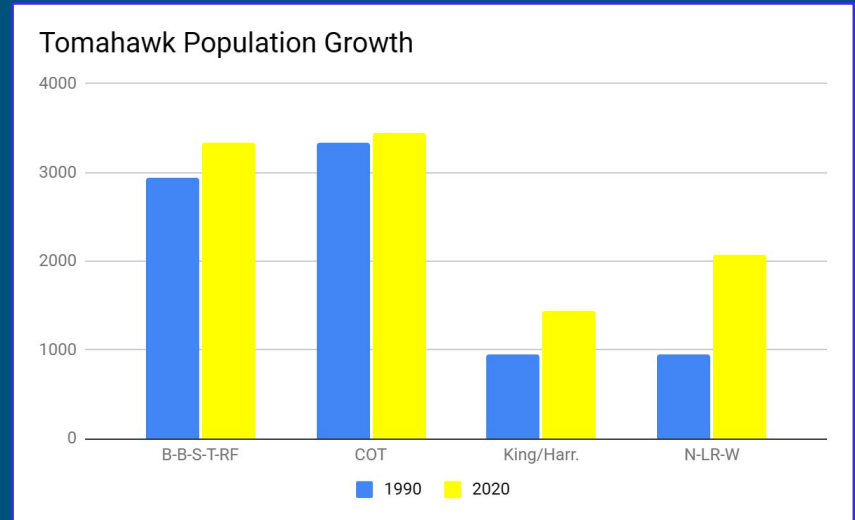

Current Representation & History

- The Tomahawk School district is represented by 9 board members with designated areas
- All registered voters in the school district may vote for board members, no matter where they live, but candidates must reside in their apportioned area.
- Tomahawk School district is a common school district which covers 424 square miles which includes townships in Lincoln & Oneida counties
 - City of Tomahawk
 - Lincoln County Townships of Bradley, Tomahawk, Skanawan, King, Rock Falls (Ward 2), Harrison (Ward 1), and Birch (40 Acres)
 - Oneida County Townships of Nokomis, Wilson & Little Rice

Current Representation & History

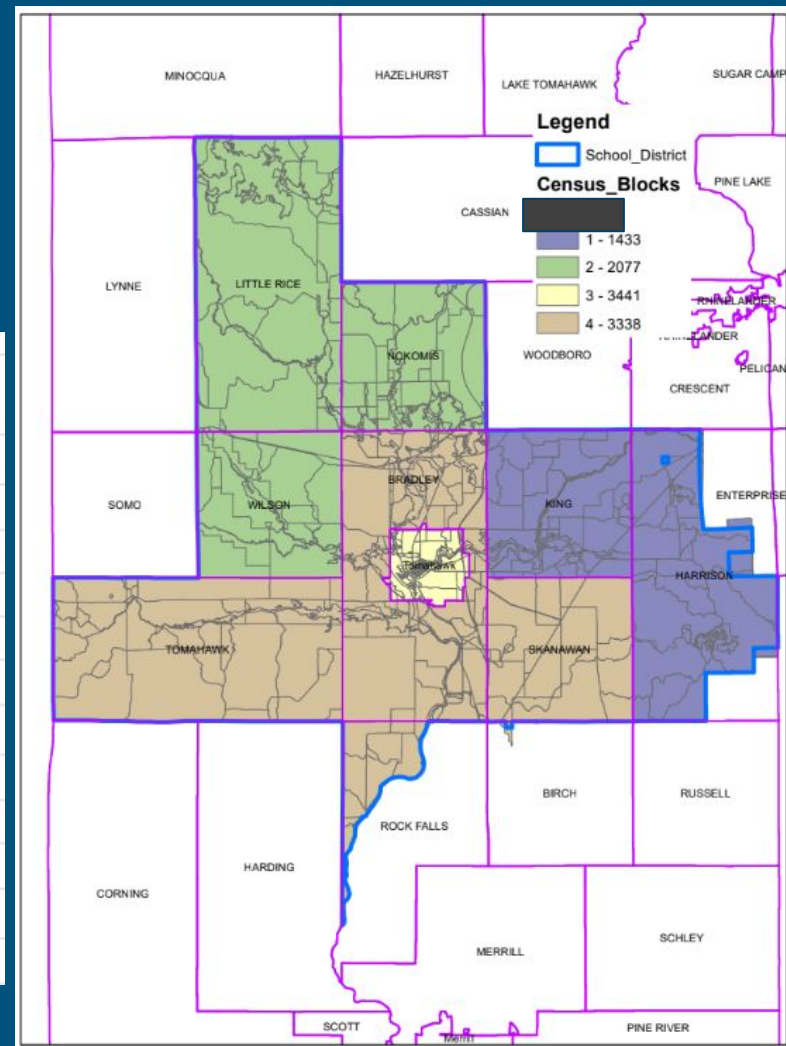

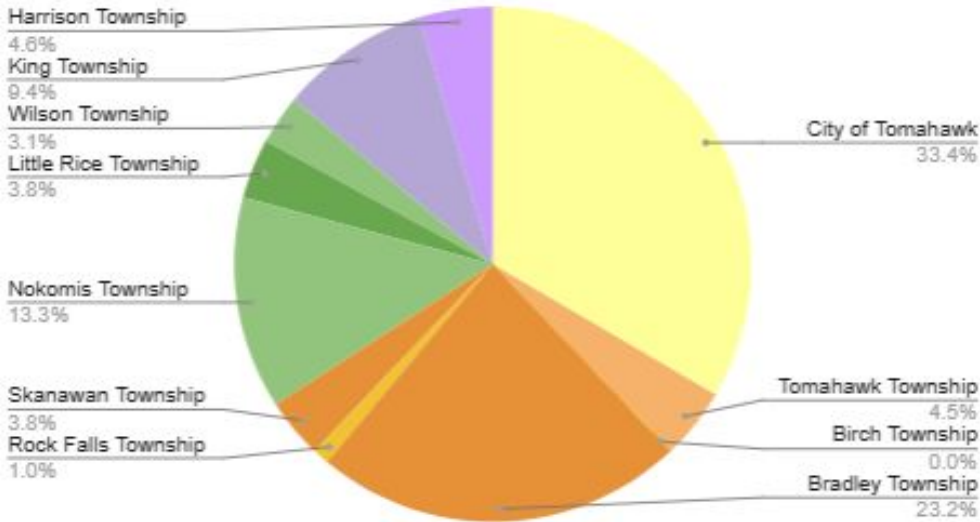

- Between 1961 – 1972 various changes occurred with Tomahawk and surrounding school district alignments
- 4/4/1972 - The current areas of representation were established.
- 1980 - All schools were consolidated to one building location, thereby eliminating all rural schools

The data from 1990 to 2020, shows that it is time to rebalance the representation from apportioned areas

King/Harrison	0	0	1
Nokomis/Little Rice/Wilson	0	1	0
City of Tomahawk	2	2	0

Why Examine Reapportionment?

- Major factors: 1960 to 2020
 - City of Tomahawk population has decreased in the school district from **49% to 33%** but still have 4 representatives
 - Apportioned area: Townships of Bradley, Skanawan, Tomahawk, Rock Falls & Birch have increased from **30.7% to 33.7%** (3 representatives)
 - Apportioned area: Townships of Nokomis, Little Rice & Wilson have increased from **7.5% to 21%** (1 representative)
 - Apportioned area: Townships of King & Harrison have slightly decreased from 12.8% to 12.4% (1 representative)

Reapportionment Sub-Committee Goals

- Explore models that ensure equitable representation based on population
- Explore models that ensure equitable opportunities for election
- If possible, ensure simplicity and voting district continuity
- Ensure maximum process transparency so district and public is aware of impending changes
- Present options to the public to collect as much feedback as possible before recommending a final option
- Present new representation model at Annual Meeting in September 2024 for community vote
- Codify process of apportionment by adding review process to Board policies every 10 years to be completed within 3 years of census
- Maintain Compliance with WI State Statute 120.02

Data Research

- Committee determined as a whole that the census data is the most reliable data we can use.
- Prior discussions included reviewing data related to eligible voters, registered voters and under 18 population. Committee recommendation is to use the population data from the census.

3-3-3 Representation Model Proposal

- 3 Apportioned Areas
- 3 Representatives from each Apportioned Area
- 3 Year Terms
- Proposed Election Cycle

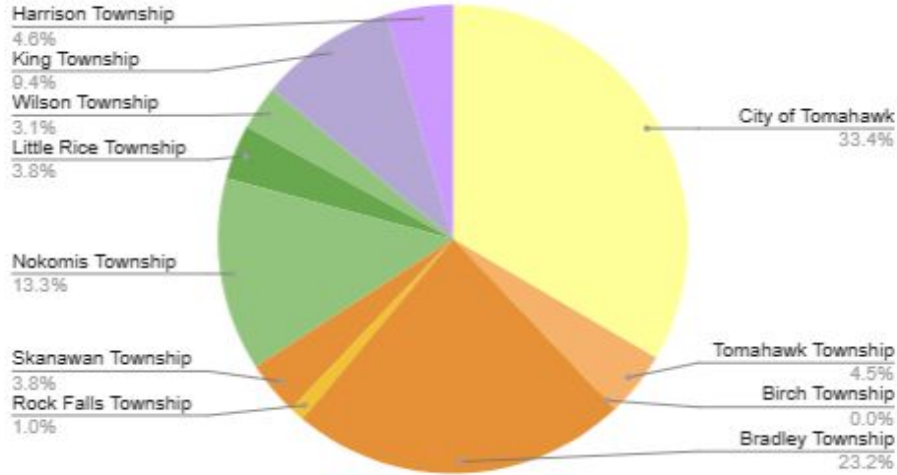

District	Year A	Year B	Year C
Area 1	1	1	1
Area 2	1	1	1
Area 3	1	1	1

Benefits of the 3-3-3 Model

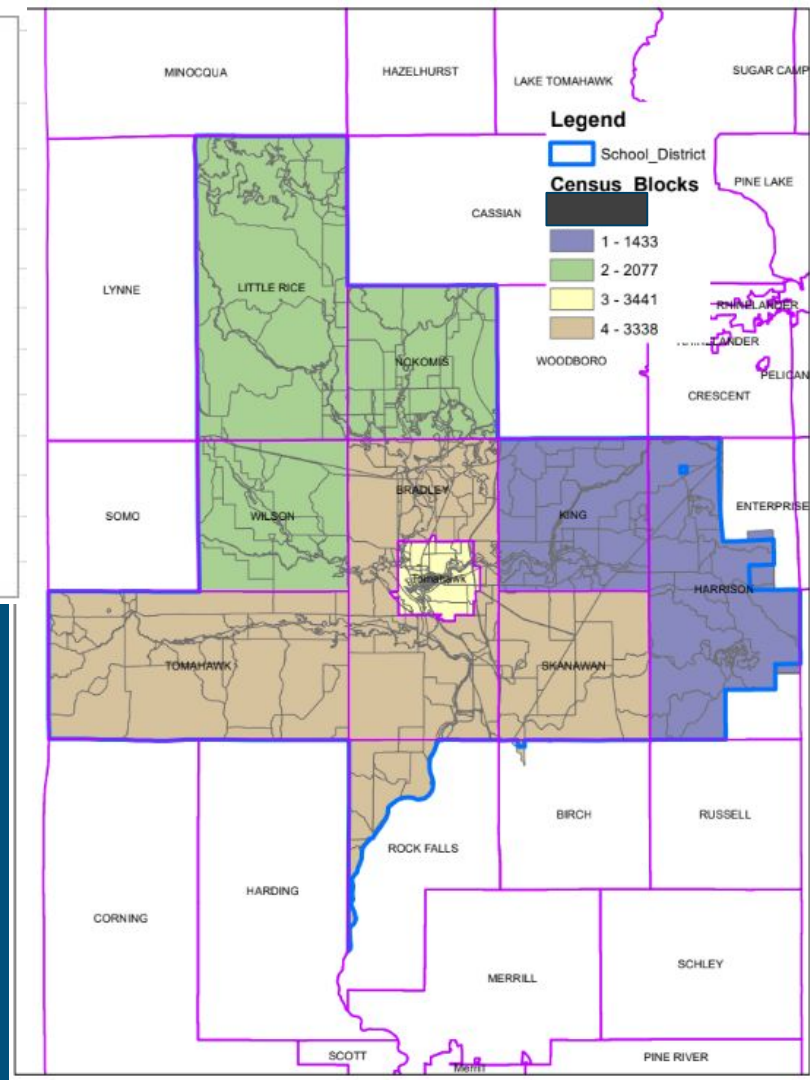

- Allows for any resident in any apportioned area opportunity to run for office in any election year
- Keeps Board representation at current 9 member level
- Model offers consistency
- Encourages equitable representation and involvement based on population
